Full Service

Hardtail/Hybrid - £100 Drop Bar - £140 Full Suspension - £160

The same procedures as carried out in a general service, plus all the special extras outlined below. This is the most comprehensive service we offer. By stripping the bike down to the frame, replacing worn components and renewing lubricant, we can return your bike to premium condition. The perfect service for a bike that has had a tough winter, or one that needs tuning for the upcoming race season.

Frame and Forks

- Frame cleaned and checked for alignment and damage, threads cleaned and checked
- Bottom bracket shell faced and chased if necessary
- Suspension linkage hardware removed, cleaned, and greased (if applicable)
- Frame and disc mounts faced (if applicable)
- Headtube reamed and faced if necessary

Wheels

- Hubs disassembled, cleaned, inspected and reassembled if appropriate.

Headset

- Removed, cleaned, re-greased(if applicable), refitted and checked for free movement
- New headset installed if required*

Bottom Bracket

- Removed, cleaned, re-greased(if applicable), refitted and checked for free movement
- New BB installed if required*

Remaining Components

- Removed, cleaned, checked for wear and re-lubricated
- Customer's choice of grips or bar tape installed*
- Full new inner and outer cables fitted (if applicable)*
- Bicycle test ridden

***Price of new components not included in service cost**

Cost of high quality degreaser, chain lubricant and grease included free of charge

Shimano Di2 Services

We love to keep up to date with the latest developments in cycling related technology. With this in mind we have embraced electronic shifting components since they were first released. Whether it is a firmware update, an indexing adjustment or the fitting of a full groupset; we are here to help.
